

Getting access to medications can sometimes be difficult or confusing. Novartis Pharmaceuticals Corporation is committed to helping you get the medicines you need. AfiniTRAC[®] offers tools and support designed specifically to help make that process easier.

What Is AfiniTRAC?

AfinaTRAC is a support program for eligible patients taking AFINITOR[®] (everolimus) Tablets or AFINITOR DISPERZ[®] (everolimus tablets for oral suspension).

The program provides 1-to-1 telephone support directly to patients through AfiniTRAC Care Champions.

AfinaTRAC Care Champions provide comprehensive educational support, including help with a treatment routine and reminders to patients to take medication as prescribed.

Additional day-to-day patient support resources can provide information on a range of independent support organizations that offer services to complement your medical care, from transportation and meals to home cleaning.

“ How Can AfiniTRAC Help? ”

*I recently helped one patient who had started AFINITOR. Within the first month of therapy, she moved, changed doctors, and acquired a new insurance policy. I was able to help the patient throughout the entire process without her missing any doses.**
